

Services

C3L offers different services to its members and the public.

XMPP

Our Jabber ([XMPP](#)) server provides a digital and live speaking tube to the [ChaosMeetings](#), as the daily life in the club as well.

Server Address: c3l.lu

Onion Address: oik2upunnymcncmz.onion

Our main MUC channel is the following:

```
xmpp://c3l@conference.c3l.lu
```

Web2XMPP

Because of popular request to offer an easy to use web solution for your @c3l jabber account, we provide you a Jappix web interface under [xmpp.c3l.lu](#) . This means no extra software for you but also **no OTR encryption!**

user@c3l.lu

If you'd like to have a Jabber address with C3L services, you can become a [member](#) of the club. If you are already a member and don't have an account yet, ping [metalgamer](#), he will give you the instructions on how to get an account.

Mumble

A mumble server is a good alternative to Skype or Teamspeak, so providing one, gives users a wire to the [ChaosMeetings](#).

```
mumble://metalgamer.eu/?version=1.2.0
```

KeyServer

We are running a [SKS Keyserver](#) which is also part of the cypherpunk.lu DNS round robin.

Direct web access: keyserver.c3l.lu

DNS round robin: keyserver.cypherpunk.lu

Alternative URL (DNSRR) keyserver.bit

DownloadBase

We are running a downloadbase where we provide you with several direct downloads for videos, podcasts, texts etc.

Sharing is Caring

Just go to download.c3l.lu

HackMD pad

We provide a public [HackMD](#) pad under <https://pad.c3l.lu>

Mirroring

See the following page: [Mirroring](#)
