The Chill

The Chill is the part of our hackerspace:

- where we hold our meetings
- where we cook
- where we eat
- where we organize our events
- where we hold our yearly AG
- where we watch movies
- where we listen to music
- where we discuss about heaven and earth
- where we chill and relax

As long as you don't want to solder or work with a saw, you can do it in The Chill. For our heavy work, we have The Lab.

Everything you find here, audio system or Kitchen Area, can be used as long as you leave it as you found it.

Full list of books, board & card games and magazines that are available in the Chill: Library
