Kitchen Area

The kitchen area is one of the most important areas in our Hackerspace, you cannot hack with an empty stomach. You might think now, that our kitchen only has a micro wave or a mini stove, than you are more than wrong. We have a full fledged kitchen with everything you would need to cook your own fresh meal.

You have a big fridge for the drinks, a smaller one for food, a freezer for our pizzas, a micro wave and a mini stove. There is also a hot dog and popcorn maker.

You can bring your own food to cook your meal or buy it fresh in a local store. Drinks can be bought in our hackerspace.
If you need an cooking idea, feel free to visit our Foodhacking page or you can simple order something. You can also find a Delivery Services page, from which we already ordered from.

price list

As we are a non profit organization, you can buy some drinks and food at us.

stuff	**price**

Fanta 0,33L	1,5
Pizza	3,5€
Oreo	0,5€
Homemade chili	6€
Hamburgers 200gr	X
Homemade bolognese	X

Fridge

We have a sophisticated fridge with a few different functions.

Temperature regulation

The set temperature of the fridge may be adjusted by pressing the temperature button. Our default temperature is set to +4°C.

COOLMATIC function

If you need to insert a large amount of warm fodd, for example after doing grovery shopping, we suggest activating the COOLMATIC function to chil lthe products more rapidly and to avoid warming the other food which is already in the refrigerator.

1. Press Mode button rpeatedly until COOLMATIC icon (Cart) flashes.
2. Press OK button to confing your selection

Holiday function

This function alows you to keep the refrigerator closed and empty durin a long hiliday period without the formation of a bad smell.

1. Press the Mode until the Holiday indicator icon (Parasol) appears.
2. Press the OK to confirm.

Door open alarm

An acoustic alarm will sound if the door is left open for a few minutes. The door open alarm conditions are indicated by:

- a flashing Alarm indicator
- an acoustic buzzer

When normal conditions are restored (door closed), the alarm will stop. The buzzer can also be switched off by pressing any button.

DrinksChill function

Use this function to set an acoustic alarm at the preferred time for example when a recipe requires to coold down food products for a certain length of time.

1. Press Mode until the corresponding icon (Bottle with Bell) appears.
    - The DrinksChill indicator flashes.
    - The Timer shows the set value (30 minutes) for a few seconds
2. Press the Temperature colder or Temperature warmer button to change the Timer set value from 1 to 90 minutes.
3. Press ok to confirm

Kitchen

Since we have full fledged kitchen there are some things you need to know before cooking.

1. we have only 10A for the whole room, so using the mini stove and the induction cooker at the same time is not recommended.

2. clean your own dishes.
3. keep in mind, that the fire detection sensor is right above the kitchen.
4. If possible, open the window while cooking.
5. If something is missing (pepper, salt, etc), tell us or buy it.
