Projekte

Projects are a vital part of an association's life. Hackers have lots of ideas, but time is not an infinite resource. So, think wisely about what ideas you would like to realize and try to inspire some other fellow members putting them to life.

On the other hand, we'll be straight forward with you, are the financial resources. These aren't for most NGOs infinite too. So, if you have the possibility to donate to your favourite project or just to all of them, please consider doing so.

Misc

- Besides project documentations, we also provide HowTo's to elaborate specific steps.
- The only barrier is your imagination. Scribble down the blueprints in the pool of ideas, before you forget about them.
- Concluded or suspended projects find their new permanent or temporary resting place in the Archives.
