Hack.lu 2013

"Hack.lu is an open convention/conference where people can discuss about computer security, privacy, information technology and its cultural/technical implication on society. The aim of the convention is to make a bridge of the various actors in the computer security world. The conference takes place at Parc Hotel Alvisse in Luxembourg the 22-24 October 2013." (Source)

Every member of C3L whom would like to attend, please register your name under attendees and make sure we'll be able to contact you. info@c3l.lu
