Touring hacker village with home base at Bleesbréck, Luxembourg. Organized the first time in 2014 as part of a village at HaxoGreen, it has developped to an autonomous camp which takes place once a year as a standalone camp or part as a village on some big hacker camp.

Organized by the Chaos Computer Club Lëtzebuerg as a continuation of the very first hacker camp in 2009; [h]ackyard has become a "truly lovely village, which cannot be missed on a hackercamp", to put it in the words of a village neibourgh at CCCamp15.
