Events

All happenings are being signed up to the calendar down below to give you a fair overview of things. You can subscribe to the ical2atom feed to stay tuned on the latest changes, if you'd like. It's supported by all major applications and services.

Regular recurring events

These are events which recur on a regular base. Usually they don't, and also shouldn't intercept with each another on the same day.

- ChaosMeetings
- Social Events

Irregular events

- Code & Hack
- Spark-Up!
- Conspiracy Night
- cypherpunk Movie Night
- Gutenberg Readers Night

Add an event

When adding your own event, use the form below. A template with predefined values will be loaded to ensure the same pattern over all events.

Event Name * Start Date * End Date Venue [[:chaosstuff
Event Description Create event

List of all future events
