

Events

All happenings are being signed up to the calendar down below to give you a fair overview of things. You can subscribe to the [ical2atom](#) feed to stay tuned on the latest changes, if you'd like. It's supported by all major applications and services.

Regular recurring events

These are events which recur on a regular base. Usually they don't, and also shouldn't intercept with each another on the same day.

- [Social Events](#)

Irregular events

- [Code & Hack](#)
- [Spark-Up!](#)
- [Conspiracy Night](#)
- [cypherpunk Movie Night](#)
- [Gutenberg Readers Night](#)

Add an event

When adding your own event, use the form below. A template with predefined values will be loaded to ensure the same pattern over all events.

Event Name * Start Date * End Date Venue
Event Description [Create event](#)
