Minutes

ChaosStuff Log

- metalgamer:
  - Worked a lot on the wiki
  - New wiki plugin: Faster Dokuwiki Plugin, makes the wiki faster, adds quality of life modifications
  - Grocy for Stock. We'll add a stock system in the future
  - fixed SpaceAPI
- xbr:
  - Re-setup the ZigBee Pi (Raspbian, deCONZ)
  - Fixed ZigBee LED strip (lights up with space status)
  - is now part of the (local Stuff) NOC
- virii:
  - Re-added the ZigBee sensors with his zigbee to mqtt script
  - Added a Killswitch in the lab
  - Fixed DECT stuff

Cooperation with Chamber

Private: Cooperations Chamber

Possible Social Event

We might do a social event sometime soon. It's probably not for this year, but if you wanna hold a presentation, you might wanna start thinking about possible ideas.
