ChaosMeeting 2025/05

Date	27/10/2025
Time	21:22
Location	nextcloud
Administrative Council Attendees:	virii, xbr
Minutes Recording	xbr

Agenda

- MeshNet
- BSides
- 39C3: Power Cycles

Minutes

MeshNet SparkUp

orimpe has held a SparkUp in the ChaosStuff.

BSides

It's in the middle of the week (Wednesday-Friday), which makes it quite difficult for us. We could probably do 1 day, but 2 days is quite difficult. Does someone have to be present at the booth continuously?

Considering the cybersecurity aspect, it would make sense for us to bring MeshNet too, from a resiliency alternative communications network perspective.

virii will send an email asking about this.

39C3: Power Cycles

virii will post something asking local peeps that may want to attend the event.

Regarding other events that the C3L could attend:

- If we follow this 2 year cycle, Haxogreen 2026 might be a thing.
- Revision 2026, if it happens, is quite close to Luxembourg and typically happens partly over the weekend.
