Donations

A club can only live with members and money.

A simple overview of fund-able projects has now been created. So if you want to help us finishing projects or to kick-start new ones then please go ahead. Check out our current projects and decide by yourself what you want to actively support. No project found that you are interested in? Join us and launch it by yourself!

We accept Bitcoin, Ether, Monero, cash via mail and of course wire transfers!
