

Donations

A club can only live with members and money.

A simple overview of fund-able projects has now been created. So if you want to help us finishing projects or to kick-start new ones then please go ahead. Check out our [current projects](#) and decide by yourself what you want to actively support. No project found that you are interested in? [Join us](#) and launch it by yourself!

We accept Bitcoin, Ether, Monero, [cash via mail](#) and of course wire transfers!
