

Digital Eyes: your personal bodyguard

Digital Eyes is the governing project about surveillance at all levels in Luxembourg. Currently it has three activities running:

- [Luxembourg - Under Surveillance](#)
- [How to disappear in front of CCTV without magic?](#)
- [Cypherpunk Party's](#)

We're assembling all information here on these sites, please feel free to /join or add / modify content.

Note: At the moment we're still on the quest for a [logo](#) to represent Digital Eyes. If you feel up to help resolving this challenge, do so.
