

Nextcloud

We run a [Nextcloud](https://cloud.c3l.lu) over at <https://cloud.c3l.lu>. We use it mainly for our [events calendar](#), [polls](#) and video conferences via [Nextcloud Talk](#). Of course it can also be used as a file storage.

How to get an account?

As a [member](#) you can get an account. Ask your friendly [NOC](#) for an account.

Video conferences with a larger audience is now possible thanks to our own signaling server
