Our wiki

Every organization needs a place to write down their information, what they do, where you can find them an so on. For the C3L it is the wiki.

For new members or people who are not used to a wiki, it can be overwhelming at first. For exactly these people, please use this wiki-page to find out:

- how to use the wiki
- who to contact for what purpose
- to find our most basic wiki-pages
- get a first understanding about the wiki itself

What is a wiki and how to use it

This is wiki is used as a central repository of documentation. It is a wiki, use it and when you need to change something, change it. All pages have a log, so nothing will be lost and everything can be restored.

How do I get an account?

Only members of the association can get an account. If you are a member and want an account please contact our friendly NOC.
