2024/04/27 10:14 1/1 The Chill

work in progress

The Chill

The Chill is the part of our hackerspace:

- where we hold our meetings
- where we cook
- where we eat
- where we organize our events
- · where we hold our yearly AG
- where we watch movies
- where we listen to music
- where discuss about heaven and earth
- where we chill and relax

As long as you don't want to solder or work with a saw, you can do it in Th Chill. For our heavy work, we have The Lab
