ToDo

Templates

We will provide templates under the “templates” namespace. Concrete example will follow after this meeting.

"Rules"

We will define some guidelance, which are “supposé connu” on chaosmeetings (like when we will discuss a topic). Details will be discussed over the mailing list.

Naming Scheme

metalgamer explained the new naming scheme for cm pages. events pages will be moved...

Flattr for entr0py

YAY - virii will do this

"Corporate design" for press releases

We will create a OTF file with defined styles. Details will be discussed over the mailing list.

Press releases - Where to put?

Press releases (PDF) should be putted in the Downloadbase.

TLS Certificates

muling, virii and prometheus will do this as the old one is expired.

Hackerspaces.org - Should we be listed there?

YAY - metalgamer will do this

Statutes and RCSL

prometheus will call the helpline as their site is unusable

Physical lokum

prometheus will call again

Server and stuff

The next receipt is there. We have no money left. There will be money again.
