- XMAS Celebration - [prometheus](#)
- ical2atom - [virii](#)
- DNS & DNSCrypt - [virii](#)
- NGO Status - [virii](#)

## Minutes

### ToDo

Please, review all [ToDo's](#) and update them.

### RCSL

Helpline is a dead line. prometheus will try again.

### StopTafta.lu

We do not anymore provide the website for them, they migrated to Uberspace.

Our official position is, that we support both movements, but we do it only for topics which are about net-neutrality and stuff co.

### XMAS Celebration

1 January chez prometheus. Pot des présidents

### ical2atom

virii wrote a script to use ical as atom feed. We now have some sort of calendar in the wiki. Don't forget to set the location to a link to the corresponding wiki page.

## DNS & DNSCrypt

We have now a dns server running. We also have a dnscrypt server running. See wiki.

## NGO Status

We need to set a date to do that document.
