

# entr0py

entr0py is the official radio show of C3L aired live from Radio ARA. We're on air every 4th week, so nearly once a month. The topics we're treating are widespread and of all different kinds of nature; from ITSecurity to the cyberpolitical realities in all of our live, the heaviest bugfucks of the month, as the analysis of technologies in its detail. 

The name entr0py has come from [virii](#) within a jam session to find a name. Our team consists of 2 - 3 people who'll attend regulary in the shows. For the rest we'll have all different sorts of guests or interviews for our listeners.

Sometimes the 60 minutes on air are just not enough to cover some topics in detail, that's why we decided to just keep on on recording, even when the timeframe has been pushed over the boundaries. The additional minutes or hours can be found as well here on the wiki, but as podcast.

If you'd like to contact the team of entr0py, come along or bring in your topic and questions, just [contact](#) us or come along on our [ChaosMeetings](#).

 More impression of entr0py can be looked at in our [Gallery](#).

## Show

As any radio show, entr0py has of course a [Jingle](#) of its own and a [logo](#) as well.

Some topics are being discussed more than others. If this happens, we try to record an 'extended' version of entr0py, which we have named [Bare Metal](#). This is a podcast, in which all attendees discuss in a loose atmosphere topic(s) with the simple exception that everything is being recorded and put online. Very interesting for all those who want to have more technical details, but for which the the 1 hour show is simply no enough.

Below, you can read all details about the single recorded shows, as with artist information about our songs. Every show is available as podcast as well.

## Studio Visitors

Almost in every iteration of entr0py, we accommodate visitors, whom give us detailed information about a treated subject in the show. A summary of important information for studio visitors can be found below:

<b>Date</b>	The one the entr0py team has informed you about.
<b>Time</b>	Generally, we'll always meet up at around 12h30 PM - at the latest - in front / inside Radio ARA.
<b>Topic</b>	Look at the specific wiki page, using your date as reference point.
<b>Address</b>	<a href="#">2, Rue de la Boucherie, L-1247, Luxembourg, Luxembourg, Europe</a> (Second floor, above Urban Bar / Restaurant)

## Hosts Information

As running a radio show is quite a trivial task on the one hand and a complex one on the other, we have dedicated a full [wiki page](#) only to this task - and it was much needed.
